

GRADUATION EXERCISES OF CLASS OF NURSES CONDUCTED AT ST. MARKS BY BISHOP SPALDING

Reading from left to right—Miss Fannie D. Lees, superintendent; Miss Kathleen U. Townsend, Dublin, Ireland; Miss B. Marion McFadden, Minneapolis, Minn.; Miss Martha Louise Newitt, Berkshire, England; Miss Ella Phoebe Dennis, Harper, Kan.; Miss Nellie Mae Montgomery, Neillsville, Wis.; Miss Olive Whittle, Anselmo, Neb.; Miss Nina A. Killingsworth, Blackfoot, Ida.; Miss Elizabeth Morgan, Battle Mountain, Nev., and Miss Letitia Gaskin, Boston, Mass.

Thursday night graduation exercises were held at St. Marks' cathedral, the event being the graduation of the nurses of St. Marks hospital from their three years' course.

The exercises were opened by Bishop Spalding, and after the choir sang "We March, We March Rejoicing," the cere-

mony of the taking of "the vow of constancy" and the presentation of pins was conducted by Bishop Spalding, who delivered a short address to the nurses, thanking them for their work and encouraging them to continue in the line of duty.

The choir then sang, "On Our Way Rejoicing," after which the address to the

graduates was delivered by Dr. Silver of St. Marks hospital on the breadth of the field of work chosen by the graduates, and the future of women in hospital and medical work, paying a tribute to their steadfastness and encouraging them by delineating the possibilities of the work. Bishop Spalding then offered prayer.

The little service was an impressive one, especially the taking of the vows by the nurses "to devote their lives to the task which they have chosen," the candles, the robes, the solemn vow of the nurses, who have worked three years for the chance of spending their lives helping others.

into, "holes big enough to drive camels through" are found in his work, and a short order is issued to "settle at once"—on most any old terms.

To blind the public the "personal press" department is set in motion, and a campaign of red headlines is launched.

The original papers in this case were filed March 5, 1907. There have been amended complaints and stipulations filed from time to time, the last one giving the Carbon County Land company until July 1, 1909, to file testimony.

"The Girl Question," the latest musical play, was presented at the Salt Lake Theater Thursday evening. A big audience welcomed the play. There are pretty marches, pretty costumes, a hardworking chorus, and a big chorus, but the voices lack volume, and this is true of the soloists. A musical play certainly should have some one in the company with a good voice, and this is lacking in the company, that is in the case of a good story of "The Girl Question."

Paul Nicholson as Con Ryan is very clever, as is Carl George, who impersonates Baron Max Von Tesmat. Between the second and third acts Mr. Nicholson was called before the curtain and made a brief talk in the shape of a good story on himself. There are some clever dances, the stage settings are pretty, and the play has a good many things about it. The soloists may have been the victims of colds, and this might be applied to the chorus.

The play will be presented again this evening, tomorrow evening and a matinee Saturday.

A new playlet by T. N. Heffron of the Bungalow Stock company will be the opening number at the Orpheum at the matinee this afternoon. It is entitled "Her Wedding Eve," and is described as a comedy dramatic playlet. It will be an extra number on the bill.

Large and thoroughly pleased audiences continue at the Grand. "On the Stroke of Twelve" has made a hit. At the matinee at 2:15 tomorrow every person attending will receive a box of chocolates free.

Few better actresses have been seen in Salt Lake than Mary Hall, who is this week drawing crowds to the Bungalow by her work in the title role of Sardou's "La Tosca."

HEAD OF THE BAKERS ENTERS HIS PROTEST

CINCINNATI, O., April 15.—Simon H. Big, president of the National Association of Master Bakers, today sent a letter to every Ohio congressman, asking legislation to prevent the cornering of wheat.

The letter says:

"The executive committee of the National Association of Master Bakers respectfully calls your attention to the nefarious practice in wheat gambling in Chicago. We believe this should be stopped at once and prohibited in the future. Flour being an absolute necessity to keep the body and soul together, we deem it a crime against the rights of the people to permit wheat gambling. We respectfully, but firmly, demand of you as our representatives, to further and protect our rights in the future against speculation, manipulation or gambling in wheat."

Boost in Minneapolis.

MINNEAPOLIS, April 15.—The sustained bull market in wheat has resulted in boosting flour prices here until first patent is now selling from \$6 to \$6.20 a barrel, or about \$2 a barrel more than prices long obtaining here. Some 325 sacks can be made from a barrel of flour, and bakers say that counting labor and other expenses, they can no more than break even at the present cost of flour. They are now considering an agreement to reduce the price of the loaf from sixteen to twelve ounces. The price of the loaf, 5 cents, will not be advanced.

Same Story in St. Paul.

ST. PAUL, April 15.—As a result of the corner in wheat, flour has advanced in the last two weeks 30 cents a hundred pounds in St. Paul, and further substantial advances in price may be expected. Yesterday there was an advance of 20

cents a hundred, so that the ruling quotation today was \$7 a barrel, or \$3.50 a hundred. An early advance to \$7.50 a barrel, or \$3.75 a hundred, is expected.

When the blood becomes infected with the virus of Contagious Blood Poison, the symptoms are soon manifested. The mouth and throat ulcerate, copper-colored spots appear, a red rash breaks out, the hair begins to come out, and usually sores and ulcers show themselves on different parts of the body. At the first sign of the disease S. S. S. should be taken, for the trouble is too powerful and dangerous to trifling with. If allowed to run on the tendency is to work down and attack the bones and nerves, and sometimes it makes a complete physical wreck of the sufferer. The disease can make no such headway if S. S. S. is commenced and used according to directions: its progress can be stopped, the poison removed, and health preserved. S. S. S. goes into the blood and removes the insidious virus, cleanses the circulation and makes a complete and permanent cure by driving out the cause. S. S. S. quickly takes effect on the blood, and gradually the symptoms disappear, the health is improved, the skin cleared of all spots, sores and blemishes, and when S. S. S. has thoroughly purified the circulation no trace of the disease is left. S. S. S., a purely vegetable remedy, cures Contagious Blood Poison because it is the greatest of all blood purifiers tested and proven for more than forty years.
